

The New Dimension:

PIVOT+

Waterjet

only on the
Mach 200

CUT FLAT STOCK, BEVEL,
AND DIVERSE GEOMETRY PARTS,
ALL WITH PIVOT+ WATERJET.

Mach 200

 elevate expectations.

SPECIFICATIONS & CONFIGURATIONS

Linear Positioning Accuracy	→ ± 0.083 mm/m
Rapid Traverse Maximum	→ 10 m/min
Acceleration	→ 0.05 g
Repeatability	→ 0.038 mm
Ballbar Circularity	→ ± 0.095 mm
Z-Axis Travel	→ 203 mm
Base	→ 1.3 m, 3 m, 4 m, 7.3 m
Bridge	→ 1.3 m, 2 m

ANCILLARY OPTIONS & ACCESSORIES

Service Packages
FlowPath™
FlowNest®
FlowXpert®
FlowCut™
Paser CF900 Continuous Feed Hopper
UltraPierce™ Vacuum Assist
Spray Containment Shields

SHAPE TECHNOLOGIES GROUP®

SHAPE TECHNOLOGIES GROUP®
Mach 200
Waterjet Series

Mach 200

 elevate expectations.

Multi-axis cutting solution with
taper compensation – **up to 60**
degrees for bevel cutting

Exceptional throughput with
high speed wrist motion
up to **120 RPM**

Compact design delivers
maximum cutting area

Fast set-up and calibration

Robust, **durable** construction
with IP67 rating

Designed by Flow cutting
technology **experts**

Mach 200:

VALUE + PERFORMANCE.

1 POWERFUL WATERJET SOLUTION

Uniquely flexible and practical, the Mach 200 waterjet is specifically engineered to deliver value, reliability, and performance. Easily cut materials from stone to carbon fiber, and simple 2D designs to complex bevels – all with capabilities often reserved for elite waterjet systems, at an unparalleled price.

Reliable performance. Incredible value. **Elevate expectations.**

Maximize your uptime and profits with FlowCare™

With FlowCare, our customers are set up for success from the start; from training to service, technical expertise to genuine parts, and everything in-between. Get confidence in your uptime and a boost to your bottom line.

With FlowCare we'll care for your waterjet, so you can care for your business.

The Magic Behind the Machine

FlowXpert® is fully integrated 3D modeling and waterjet pathing software. Using intelligent algorithms and 40+ years of waterjet expertise, FlowXpert automatically creates the most efficient waterjet cut path for you. Get fast ROI, efficient operation, and straightforward production, so you can **elevate expectations.**

State-of-the-art Cutting Technology

From 2D to multi-axis cutting, Flow technology provides the highest accuracy, fastest cut part.

Other cutting head options available.

 **EXCLUSIVE**

Pivot+ Waterjet

Multi-axis, taper compensation cutting with accuracy and flexibility.

 **PATENTED**

UltraPierce™

Vacuum Assist for piercing of brittle and laminated materials.
